

MacroSol UAS

Total Nitrogen (N) content: 270 g/L, Total Sulphur (S) content: 70 g/L.

A high analysis liquid nitrogen containing sulphur, highly soluble and readily absorbed by plants.

DIRECTIONS FOR USE

- Product should be used during ideal growing conditions to ensure effective uptake. Avoid extreme weather conditions such as heat and frost events. Spraying in the early morning or late afternoon can assist in minimising risk of rapid drying on the leaf due to evaporation. Where local experience of successful use is not available, we recommend a small scale jar test and test application prior to wide spread use. If any issues are observed do not continue with the application.
- It is recommended to add product to the tank mix after all other products have been mixed well in the tank, including most of the water.
- Do not apply by foliar application to stone fruit.
- Do not apply by foliar application to flowers or fruit of any crop.

COMPATIBILITY

Compatible with most common fertilisers and crop protection products. It is recommended to perform a jar test before mixing. Do not use with amine based products. Do not apply this product with copper fungicides by foliar application on all crops.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

SAFETY DATA SHEET

For further information, refer to the Safety Data Sheet (SDS) which is available from the supplier or from our web site, www.sipcam.com.au

CROPS	RATE	COMMENTS
ALL CROPS	Foliar (broadacre) 30 – 60 L/ha	Apply as required by the crop. Does not require rain or irrigation to facilitate uptake.
	Starter fertiliser 10 – 80 L/ha	For furrow injection the product should be 2 cm below the seed. If applied with the seed apply a maximum rate of 40 L/ha.
	Streaming nozzles / Soil drench 20 – 200 L/ha	Apply as a direct soil spray or with irrigation.

CAUTION: Do not apply as a foliar application in conjunction with copper and EC fungicides. Applications in adverse spraying conditions or in conjunctions with some crop protection products may result in reductions in efficacy or phytotoxicity which may not be acceptable to growers. For most effective results apply early morning or late afternoon.

WARNING: This fertiliser contains biuret.

WARNING STATEMENTS

Do not swallow. The spray from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin.
